

③ Print tree by level and zig zag

06/24/2019

print by level or short) and zig zag tree

void printByLevel(Node n) {

if (n == null) return;

Queue<Node> q = new LinkedList<>();

q.enqueue(n);

while (!q.isEmpty()) { int size = q.size();  
while (size > 0) {

Node n = q.dequeue();

print(n);

if (n.left != null) q.enqueue(n.left);

if (n.right != null) q.enqueue(n.right);

size--;

}

}
